

Fireballs

Kix

I've been up
I've been down
I've double crossed ripped off and fooled around
I might bruise
I might bleed
But I fight to the finish to get what I need
If I'm love struck baby
Get out of my way
Take what I want - I don't play to play
Don't need no bullet proof vest to save my life
Don't Need a blackjack, gun or a knife
I've got

Fireballs - they're big and they're blue
Fireballs - they're burning for you
Fireballs - hear the thunder and noise
Fireballs - search and destroy

It's a bird
It's a plane
It's an all night-rock-n-roll ball of flame
Shake your Shakr
Shout your shout
If it's in ya baby
It's got to come out
Vocano eruption
It's hot and it's mean
Like an angry beat that's starting to steam
Get out of my way, I'll mow you down
The dirty boys are comin' to town
We got

Fireballs - they're big and they're blue
Fireballs - they're burning for you
Fireballs - hear the thunder and noise
Fireballs - search and destroy

There's nothing you can do
We're coming after you

Fireballs - they're big and they're blue
Fireballs - they're burning for you
Fireballs - hear the thunder and noise
Fireballs - it's my bundle of joy
Fireballs - they're big and they're blue
Fireballs - they're burning for you
Fireballs - hear the thunder and noise
Fireballs - search and destroy
Fireballs (yeah)
Fireballs
Fireballs (yeah yeah)
Fireballs hey

There ain't nothing you can do
We're coming after you
