

## Shake It Off

KJ-52

Now put two in the air (man just go and shake em off)  
like you really don't care (man just go and shake em off)  
and put em to the sky (man just go and shake em off)  
why don't you hold em real high (man just go and shake em off)  
go go go go off with it

Are you dealing w/ these things up in ya mind right?  
banged up like hit and runs from a sideswipe  
here's something you can read like a time life  
something that will help you see better than ya eyesight  
my life this night gone shine bright  
but to just to put Jesus in the limelight  
and not trusting him don't even sound right  
that's like me going out and renting twilight  
things they be getting harder  
we try to hang on like our name was Peter Parker  
I seen the saga so I'm seeking out the living water  
instead of letting problems chop like benihanna  
I been through the drama you stay ahead of me  
like you was number 4 and I was number three  
everything I have now is cause you be  
I gotta shake it all off here's the remedy

So understand man dude he's never limited  
sometimes it takes a little time till he finishes  
I keep spitting it until ya getting it  
until you give him all the credit like a gift certificate  
so are you listening man what you living for  
are you missing it now what you heading toward  
you can't make it all along now this for sure  
that's like running backwards through a metal doors  
now he's guaranteed for plenty more  
then the little bit you tend to get and settle for  
when I get on tour I'm spitting metaphors  
and similes with clarity till the tongue is sore  
now he reigns his blessing pour  
that will keep you on you're toes like a pedicure  
with the way life goes man I'm never bored  
but sometimes I gotta shake it off that's for sure
