

# You'll Never Take Me Down

KJ-52

You aint never gonna take me down  
(so you see I ain't gonna break)  
Your never gonna take me down  
(you can't stop what you can't stop) (2x)

They wanna see me gone they wanna see me crawl  
They wanna shut me up untill I cant speak at all  
They wont let me up they wanna see me fall  
But it aint nothing cuz I done seen it all  
Sometimes I feel like I cant breathe at all  
I lie awake at night I cant sleep at all  
I got no strength to fight I cant shake it off  
But that's the time in my life when I hear you call  
You say hold tight you say hold on  
You say it's alright you say stand strong  
Cuz my whole life I got a plan and all  
So I don't worry about a single thing that happens y'all  
Say what you want you can talk on  
I'm a get on up and I'm a walk on  
Now I ain't giving up until I'm long gone  
So why don't you step it up bring it on y'all

You aint never gonna take me down  
(so you see I ain't gonna break)  
Your never gonna take me down  
(you can't stop what you can't stop) (2x)

MTV said I was just a hater  
Magazines said I was an imitator  
The industry said nobody's gonna take ya  
Record labels was like peace out see you later  
I didn't need them man I just got  
Someone to depend on when it gets hot  
So VH1 you can talk all you wanna talk  
Keep ya hip-hop and keep ya lip locked  
I aint gonna listen now to them talk  
I aint switching up and I aint gonna stop  
I aint giving up and I aint gonna drop  
Even when I just get stuck up in ruff spot  
I aint got much but what I just got  
You see it's more than I need when I just drop  
To my knees and I can see that he shows up  
You cant break me down that's some real talk

You aint never gonna take me down  
(so you see I ain't gonna break)  
Your never gonna take me down  
(you can't stop what you can't stop) (2x)

So what you gonna do when it falls apart  
Who is the one man that you call upon  
When everything that you know keeps going wrong  
Plus you feel like you can't keep going on  
See I know dukes your barely holding on  
They wanna break you down but keep rolling on  
They wanna take you down but don't let em y'all  
They can't hold you now God's in control

Don't slow it down just walk it off  
It aint easy I know sometimes its really hard  
Please believe me I know you see I'm battle scarred  
With my knees to the floor that how I battle on  
Say what you want you can babble on  
This I know what I got so I travel on  
Don't ever stop that's why I wrote the song  
So ready or not now bring the chorus on

You aint never gonna take me down  
(so you see I ain't gonna break)  
Your never gonna take me down  
(you can't stop what you can't stop) (2x)
