

# I Can't Help It

Klaatu

I just can't help myself  
You've got control of me  
I'm not the kind who likes to hang around  
I just can't help myself  
I should walk away  
But something's telling me to stay

It's like telepathy  
Almost magnetically  
Every part of me is drawn to your side  
It's not like me to be  
Goin' out of control  
You could stop it if you tried

I can't help it  
I can't help it if I love you  
I can't stop it  
And I'm not gonna try to  
I can't help it  
I can't help it if I love you  
Got to fill this emptiness inside

I just can't help myself  
You've got control of me  
It's a tragedy what you have done to me  
A major catastrophe  
It's getting out of control  
You could stop it if you tried

I can't help it  
I can't help it if I love you  
I can't stop it  
And I'm not gonna try to  
I can't help it  
I can't help it if I love you  
Got to fill this emptiness inside

I can't help it  
I can't help it if I love you  
I can't help it  
I can't help it if I want you
