

## It's Not Over Yet

Klaxons

I'll live for you  
I'd die for you  
Do what you want me to  
I'll cry for you  
My tears will show  
That I can't let you go

It's not over, not over, not over, not over yet  
You still want me, don't you  
It's not over, not over, not over, not over yet  
Cos I can see through you  
It's not over, not over, not over, not over yet  
You still want me, don't you  
It's not over, not over, not over, not over yet

Don't let me down  
Don't make a sound  
Don't throw it all away  
Remember me  
So tenderly  
Don't let it slip away

It's not over, not over, not over, not over yet  
You still want me, don't you  
It's not over, not over, not over, not over yet  
Cos I can see through you  
It's not over, not over, not over, not over yet  
You still want me, don't you  
It's not over, not over, not over, not over yet

It's not over, not over, not over, not over yet  
You still want me, don't you  
It's not over, not over, not over, not over yet  
Cos I can see through you  
It's not over, not over, not over, not over yet  
You still want me, don't you  
It's not over, not over, not over, not over yet
