

## If Only You Could See Me Now

Klimt 1918

it's strong in my mind  
our will to win and leave  
nature found a way today  
i do whatever it take  
you can't honour me  
there is a first time for everything

if only you could see me now  
i'm the one who set the stage  
And if you think I'm inhumane  
I could destroy your useless world

i was there at alone  
ill scream my name  
me with my light  
you with your club

watch the world goes by  
i'm afraid but you  
you violate our smile  
gonne be riot here  
you better know my name  
i'm sorry to say  
i don't care if you die  
i don't care if you live
