

## Attak/Reload

KMFDM

Watching you  
Floodlights seal your fate  
Shallow breath  
Quick pulse  
Navigate  
All this waiting, waiting  
Contemplating you

Pure adrenaline emergency  
You've been searching for signs now the truth has arrived  
State control  
Attak/reload

Theoretical illusory  
Volunteer to the ultimate system of life  
Brace the blow  
Attak/reload

Molecular breakdown mutate below  
Cause and effect to react and explode  
Static rush  
Gravitational pull of delirium

Close my eyes  
Hear what you say  
Got the guns  
The power to take  
Bomb the one  
The one that slipped away

Temper tantrum you communicate  
It's your nature to be cold  
Automatic how you operate  
System failure  
Brain control
