

## Back In the U.S.S.A.

KMFDM

We're gonna make you sorry  
For every word you say  
Like U-boat commanders  
We stalk our prey

The name of the game  
Is to do it the strongest  
Last one laughing  
Laughs the longest

The future belongs to those of us still willing to get our hands dirty!

Voyeuristic, vile, and victorious!  
KMFDM is back!  
Bow to the warriors! [2x]

Back in the USSA!

You're just another old stump  
A rusty battle cruiser  
Too tired to riot?!?!  
You idiot - you loser

Eternity's strange affliction  
Overflow blackout to fix one nation  
(A treat for the freaks - truth or dare)  
Narcisitic creature (are you ready for this?)  
My attention is fixed (we don't care)  
Never in madness (we don't care)  
Abomination of the awkward kiss (we don't care)  
You make me sick (we don't care)
