

## Looking for Strange

KMFDM

Jetlag limbo can't decide  
Like molten rock I turn to stone  
Take me outside of myself  
Do it nice and slow  
Somewhere down here in the underbelly  
No words are used to speak at all  
Comatose from lack of sleep  
Will I ever learn to talk?  
Echoes scream without a sound  
Mirror pond reflects no face  
Shellshock avalanche  
Dialed out can't be reached  
No failsafe at close range

Girls and boys  
Guns and noise  
Beat by beat  
Be the best that you can be  
Best to your ability  
Your future's bright and ours to take  
Do exactly as we say  
Step right up, sign right here  
Your name in blood, have no fear

Get ready set all systems go

Good life Godlike  
Wanna see it from the inside  
Bound down gun shy  
Looking for strange  
Go on give it to me  
Don't stop let me feel it  
Looking for strange  
Faster, Harder, More  
Last chance, no return  
Looking for strange

Freefall swan dive
