## Piggybank

Hopelessly retarded Spluttering decay Crying out the lament every night and every day

Hiding in the twilight X-Ray shades Suffering from constipation Tripping out of space

I've been recoiled into stone age Covetous a dream Obnoxious and depraved Waking up in a scream

Sleeping in the morgue A weird effect on me Think I lost my consciousness Left reality

My inner circles' Helter-Skelter Echoes loving ecstasy I know I'll find a way to live A way for you and me

Totally addicted Under detrimental spell If I had a shotgun I'd blow myself to hell

Let me be your piggybank For nothing but your smell And if I had a shotgun I'd blow myself to hell

Squalid and deranged I'm the outlaw of the kin We'll never be the same again Stuck in deadly sin

I slouch along the street Instead of struttin' down the block I still did not recover From that stunnin' cold shock

My inner circles' Helter-Skelter Echoes loving ecstasy I know I'll find a way to live A way for you and me

Totally addicted Under detrimental spell If I had a shotgun I'd blow myself to hell

Let me be your piggybank For nothing but your smell And if I had a shotgun

## **KMFDM**

My inner circles' Helter-Skelter Echoes loving ecstasy I know I'll find a way to live A way for you and me

Totally addicted Under detrimental spell If I had a shotgun I'd blow myself to hell

Let me be your piggybank For nothing but your smell And if I had a shotgun I'd blow myself to hell

Let me be your piggybank Let me be your piggybank
