

## Please Shut Off The Lights

Knapsack

It wraps around the cord for him  
Said I'm wasting, sinking  
Soaking in to bones and cartilage  
Crossing out the quarter where he lives

So I have arrived  
Know this nothing gets me nowhere  
Know I am larger than this lie  
Our generations

I have only one regret  
At the moment I forget  
Any takers on this life  
And if you're the last one left  
This is my request  
Could you just shut off the lights

Take a sample and let it testify  
Drowning endless estimation anger of my life  
Terrorized to the ending of my end  
Everything is absent is nothing I can give

So I have arrived  
Know this nothing gets me nowhere  
Know I am larger than this lie  
Our generations

I have only one regret  
At the moment I forget  
Any takers on this life  
And if you're the last one left  
This is my request  
Could you just shut off the lights
