Knife Party

No matter how high the mountain
Sure my lucky stars will catch it
As long as we fight it together
We can turn it around

No matter the weight of disaster
You know I'll be right there to catch her
So long as we fight it together
We can turn it around

Nothing, nothing, turned into something
Look at us now
Got a good thing, good thing
Pulling at my heartstrings
We turned it around

No matter the weight of disaster
You know I'll be right there to catch her
So long as we can fight it
We can turn it around
