

# Superstar

Knife Party

You're a superstar!

'Cause you're a superstar, baby, you're a superstar  
'Cause you're a superstar, baby, to me  
'Cause you're a superstar, I'll tell you what you are  
'Cause you're a superstar, baby, to me

Now I'm speechless, I can't believe that, you're next to me  
I cannot find the words

Everyone's starin', but I'm not sharin', no sir, no way!  
I'll steal your lovin' and take it from the world below, so hold out your hand  
'Cause you're a superstar, baby, you're a superstar  
'Cause you're a superstar, baby, to me

Oh my God. What the fuck is this disco shit? What happened to the dubstep?!

Looks like perfection, want your attention, so I say 'hey!'  
I cannot find the words

It's nice to meet ya, what a pretty little creature, tell me your name  
I'll steal your lovin' and take it from the world below, so hold out your hand  
'Cause you're a superstar, baby, you're a superstar  
'Cause you're a superstar, baby, to me

Come give me love, come give it all  
Come give me everything I'll ever want and more (Don't stop!)

Come give me love, like a superstar, just give me everything I'll ever want and more

Come give me love, come give it all  
Come give me everything I'll ever want and more

Come give me love, like a superstar, just give me everything I'll ever want and more

Come give me love, come give it all

Come give it all!

Come give me love, come give it all
