## **Faster Harder Scooter**

**Knorkator** 

Let's go out for a walk to the other side

Get the sound, join the crew and you feel alright

No more fiction go back to reality

It's the message so listen and you will see

No illusion the spirit is what you feel

Get the volume tonite, you can make it real

I explain once again, we won't let you down

That's what I pronounce

We're getting Faster, Harder, Scooter

From Japan and Brazil to the U.S.A.

Let me ask you if there is a better way

I believe reminiscing the time we had

Don't you know we just want you are going mad

No bad rumors or charges could make us stop

Now the time has come we will reach the top

I explain once again we won't let you down

That's what I pronounce

We're getting Faster, Harder, Scooter
