

# Prevail

## Kobra and the Lotus

Gather around all my brothers and sisters  
For today is the day we change everything  
We've travelled so far in this journey of existence  
Don't you think it's time we had a little peace?

This is for all the non-believers  
The ones who said we'd never make it out  
This is for all the adversaries in our heads  
That filled our minds with failure and self-doubt

Hear our war cry!

We will prevail  
And we're never backing down  
With the flame of courage in our eyes  
Magnificence!  
We will prevail!

So tell me, won't you tell me all the ways you were denied  
I assure you everyone here's been there too  
Don't forget we are all lions born of strength and fortitude  
So get up, lets fight the battle of our lives!!

This is for all the non-believers  
The ones who said we'd never make it out (I'll make it out!)  
This is for all the adversaries in our heads  
That filled our minds with failure and self-doubt

Hear our war cry!

We will prevail  
And we're never backing down  
With the flame of courage in our eyes  
Magnificence! Magnificence!  
We will prevail!  
And we're never backing down  
With the strength and courage, we survive!  
Fight for your lives!  
We will prevail!

Whoa

Hear our war cry!

We will prevail  
And we're never backing down  
With the strength and courage, we survive!  
Fight for your lives!  
We will prevail!  
We will prevail!  
We will prevail!  
We will prevail!
