

TriggerPulse

Kobra and the Lotus

Becoming a resistance
Ignition coil tightening
Elevating tension
Reached the point of fragmenting

As I turn to dust
In the atmosphere
Floating from gravity
I set off
Like a trigger pulse
Shattering into space
Trigger pulse

Elemental patterns
Woven too deep to remove
Convoluting fabric
This body's hardly bulletproof

As I turn to dust
In the atmosphere
Floating from gravity
I set off
Like a trigger pulse
Shattering into space

Rise
Rise against the pulse
Rise
Triggered no more
Colour me encouraged / x4

As I turn to dust
In the atmosphere
Floating from gravity
I set off
Like a trigger pulse
Shattering into space

I am dust
In the atmosphere
Floating from gravity
I set off
Like a trigger pulse
Shattering into space
