## Warhorse

## Kobra and the Lotus

Trampling creation, a vision destroyed Eternal dissident noise Crippling the earth as it falls in his void Fearing the hate in his eyes

Show no mercy, Leave no pride Life of ruin, Leave them blind

Dark Lord, he will betray Discord, infecting with decay

Here comes the war horse Built to Destroy you Here comes the war horse Burn in hell! Here comes the war horse We will destroy you Here comes the war horse Burn in hell!

Galloping malice, a thunder of fear Brought by a steed of demise Capturing, torturing, sucking them in With gifts of corruption and lies

Show no mercy, Hear them cry As they suffer, They will die

Dark Lord, he will betray Melkor, infecting with decay

Here comes the war horse Built to Destroy you Here comes the war horse Burn in hell! Here comes the war horse We will destroy you Here comes the war horse Burn in hell!

Where do we go from here? War horse is getting near How do we get away? This is the end of days

Where do we go from here? War horse is getting near How do we get away? War horse has come to slay!

War horse!

War horse! War horse! War horse! War horse!

Here comes the war horse Built to Destroy you Here comes the war horse Burn in hell! Here comes the war horse We will destroy you Here comes the war horse Burn in hell!
