

# Hide and Seek

Kodaline

I don't wanna be the one to try  
Being someone else is not my style  
There's a missing piece I'm trying to find  
I don't know how but you made me look twice

Sleep, I don't need no sleep  
I've had such a week  
I just wanna take off flying  
High, higher than the birds  
Words are only words  
Take my hand and go there with me

There's no hide and seek  
I see you, see me  
What's the mystery?  
Give it up, let go  
Somewhere in between  
Real and make believe  
You've got what I need  
Give it up, let go

Keep on asking, why is there divide?  
I'm hanging on to see if we collide  
And we don't need to know the place or time  
As long as I am yours and you are mine

Sleep, I don't need no sleep  
I've had such a week  
I just wanna take off flying  
High, higher than the birds  
Words are only words  
Take my hand and go there with me

There's no hide and seek  
I see you, see me  
What's the mystery?  
Give it up, let go  
Somewhere in between  
Real and make believe  
You've got what I need  
Give it up, let go

There's no hide and seek  
I see you, see me  
What's the mystery?  
Give it up, let go  
Somewhere in between  
Real and make believe  
You've got what I need  
Give it up, let go

Sleep, I don't need no sleep  
I've had such a week  
I just wanna take off flying  
High, higher than the birds  
Words are only words  
Take my hand and go there with me

There's no hide and seek  
I see you, see me  
What's the mystery?  
Give it up, let go  
Somewhere in between  
Real and make believe  
You've got what I need  
Give it up, let go
