Cha Ching, uh strip Ah, ah, ah, Ark! Ah, ah, Ah, Ark!

Checkin' my one shortie, checkin' my view
Half past two tell me what we gonna do
You stalin' me, now I wanna blaze it out
I wanna see what it's like let me take it down

I wanna dive in your tight thighs, got the right size Wanna do things till you frame hit the light Slow flow, no clothes, anything goes Head to your toes, you know I gotta go

Gotta let me know, tell is it fo' Finish up and more and we can hit the floor Take it to the back, watch the car we at No matter where we at we can make it happen

It's a quickie, two minute on the spot It's hot, let me hit it In the back of the club in my SUV Anywhere you want, ain't nobody gonna see

It's a quickie, pants knees high heels and glue sticky Don't worry, 'cause I know you're gonna feel me It all will be over in a minute It's a quickie, baby

First thing in the day on my lunch break We gotta slip away gotta meet some place Half on the room, gotta get back soon Gotta half an hour but you know what to do

Take me, make me scream your name
I can take a lil' pain while you do your thang
Overtime, anytime it really don't matter
Feelin' for your hit, boy give it to me!

Gotta let me know, tell is it fo' Finish up and more and we can hit the floor Take it to the back, watch the car we at No matter where we at we can make it happen
