## **Die Cat Die**

## **Koffin Kats**

Gear myself up with vodka and drugs and a knife to plunge right in your chest I cant wait to see the look on your face Asking me why I just took your life Carve you up in little pieces Feed you to my dog And should I feel bad?

Fuck no

Die cat die, revenge is mine
What was the reason for this?
I swear I'll find one
Die cat die, revenge is mine
Someday I swore I'd make you pay
And now the time is right

I see your face and you're smiling at me Asking me how I've been
I hate the way you treat me like shit
I never was your friend
Crying out, and now you'll know why
