

Graveyard Tree

Koffin Kats

In the cell, they give me drugs
Making me seem to forget
You can't take those sweet memories
Romancing on the grace

Underground you wait
And someday I might return again
Skin and bones with ragged clothes
Romancing on the grave

When you dance with the dead, you never move on
She felt so right, it was wrong
Everything's not simple anymore
They put me away
They took me away from you

Spend a day or even night thinking of someone like you
You were so damn perfect though

Romancing on the grave

But the love we had wouldn't last
Cause they came and took you away
Underneath that graveyard tree, romancing on the grave

Time has has passed
And it seems that I'll never get to go
Maybe you've found someone else
Romancing on the grave

This is life, and you're death
Now I'm sick from your disease
Now I need to cure myself
Romancing on the grave

Take my love straight to the grave
