

Her name was rock and roll

Koffin Kats

I would travel the world and live my life through you.
I would beat my body 'till it's black and blue for you.
I would lose everything and never look back for you.
And when I close my eyes the only thing I hear is you.

Well I'm wasted and alone.
I wonder how far it could have gone.
The memories are fading everyday.
But I'll never forget her name was rock and roll.

I saw the light of the brightest stars through you.
I saw every scar on my body that was for you.
I saw all the others rise and burn for you.
And the only one id ever regret was you.

Well I'm wasted and alone.
I wonder how far it could have gone.
The memories are fading everyday.
But I'll never forget her name was rock and roll.

Well I'm wasted and alone.
I wonder how far it could have gone.
The memories are fading everyday.
But I'll never forget her name was rock and roll.
