

Keep It Coming

Koffin Kats

Spent all week living with the lonely mans blues
Working long hours with memories of you
I know a place where I can clear my head
No more sleepless nights rolling in my bed

Hey barkeeper you're gonna help me out
I gotta whole paycheck that I'm throwing down
So keep it coming
I'm blacking out tonight
Tomorrow is a new day to get on with the rest of my life

Yeah my life wasn't bad
Until the final day when ya just went mad
Found the note said "Go to Hell"
Funny thing is I'm doing just that
