

Theme For A Sinner

Koffin Kats

God didn't hear your prayers tonight
Satan listens anytime
Looking up at you and me
Loving all the hell we breed

All night
Laying out lines
Pour the shot
We'll never fucking care

Sinners now till the end of time
You only get one life

Sun came up never went to bed
Got the devil in my head
He knows what we do is right
We get drunk in the daylight

Need thrills
Lets pop some pills
Few more shots

Boys you gotta slow it down
You lost your teeth and look like hell
All those words were never heard
Crack that 40 lets take a ride
