

# Bring Me Some Water

Koko Taylor

Tonight I feel so lonely  
All in love ain't fair  
I turn the other cheek, baby  
I learned to slap and the stink of the foul night air

I know, you're only human but I don't have talking room  
Tonight while you're makin' excuses  
Some other woman is makin' love  
Some other woman makin' love to you

Somebody bring me some water  
I'm burnin' up alive  
My baby's got another lover  
Don't know how I'll survive

Somebody bring me some water  
Can't you see it's out of control?  
Got my heart, got my mind  
But tonight sweet devil, sweet devil's got my soul

When will this aching pass?  
When will the night be through?  
I hear the breakin' glass  
I only feel the steel of the red hot truth

I'd do anything, get you off of my mind  
I need some insanity that temporary kind  
Tell me how I ever be the same  
I know that woman is somewhere whisperin'  
That other woman somewhere whisperin' your name

Somebody bring me some water  
I'm burnin' up alive  
My baby's got another lover  
Don't know how I'll survive

Somebody bring me some water  
Can't you see, it's out of control?  
Got my heart, got my mind  
But tonight the sweet devil, sweet devil's got my soul

Somebody bring me some water  
I'm burnin' up alive  
My baby's got another lover  
How am I gonna survive?

Somebody bring me some water  
Can't you see, it's out of control?  
Got my heart, got my mind  
But tonight sweet devil, sweet devil's got my soul

Hey, hey, hey  
He got my soul, he got my heart  
He got my mind, he got my soul  
Oh sweet devil, c'mon devil  
[Incomprehensible], you devil, you devil  
Oh sweet devil
