

Autocorrect

Kongos

In the future
Will I need my mind?
Or will Google
Take over this grind?

I'm so tired
Of using my head
Just wanna be wired
Directly into this grid

I wanna get fucked up
And then hit undo
Get my head hooked up
To download some kung fu
I wanna be free
Of all responsibility
I want a TV
Right on my retina please

And if it looks like shit's about to go down
I don't think twice, it's alright
And if, and if it looks like I'm about to hit the ground
I know that I won't pay the price
I don't care, I don't care if trouble feels like coming around
Cause I got Autocorrect (for life)
Autocorrect for life

I wanna, I wanna
I wanna, I wanna
I wanna get fucked up
Get my head hooked up
I wanna be free
I want a TV

So in the future
Will my attention span
Hey, in the future
Think we'll still do it by hand?

What is happening
To the length of my thought?
What is that crackling?
I think my brain's about to short

I wanna get fucked up
And then hit undo
Get my head hooked up
To download some kung fu
I wanna be free
Of all responsibility
I want a TV
Right on my retina please

And if it looks like shit's about to go down
I don't think twice, it's alright
And if, and if it looks like I'm about to hit the ground
I know that I won't pay the price

I don't care, I don't care if trouble feels like coming around
Cause I got Autocorrect (for life)

I wanna, I wanna
I wanna get, wanna get, wanna get....
I wanna get fucked up
Get my head hooked up
