

# Do You Love Me Still?

The Kooks

I have thought that you have come back lately  
To take my soul away from me  
Cause when I see you  
You rip my heart out  
But all the same you're not to blame  
Baby baby I love you still

But I need your heart beating next to my heart  
In love I am  
I need your heart beating next to my heart  
In love I am

Do you remember how I met you child  
I was down and I fell for you completely  
When I wanted your heart and  
You didn't want me now you did  
But now you did

I need your heart beating next to my heart  
In love I am  
I need your heart dancing next to my heart  
In love I am

Baby do you love me still  
Cause I miss you  
I miss you  
Baby  
I miss you
