

Westside

The Kooks

I was living on the westside,
When you brought me south,
At first you didn't like the look of me,
Your borders were closed,
Although you said I'm bad company
We stayed in touch,
You made it hard work for me,
Working for your love,
But now

Well we can settle down,
We'll start a family,
Cause you're my best friend,
And you're so good to me,
Well we can settle down,
We'll start a family,
Cause you're my best friend,
And this is love song number 23

You were living in the city,
You had the world at your feet,
Yeah you had a part time job,
Pleased to be living free
You made it hard work for me,
I had to work for your love,
And now

Well we can settle down,
We'll start a family,
Cause you're my best friend,
And you're so good to me,
Well we can settle down,
We'll start a family,
Cause you're my best friend,
And this is love song number 23

Westside...

Well we can settle down,
We'll start a family,
Cause you're my best friend,
And you're so good to me,
Yeah you're so good to me
Yeah you're so good to me
Cause you're my best friend,
We'll start a family,
Yeah you're so good to me
And this is love song number 23
