Statues, buildings, street killings, living could be heaven Pimps {?} thugs, nothing given driven
The Penthouse look is dope cookers jukers
The high price, hookers gamblers pushers
Subways no way, cab some days
Town call always I all days
Honest but dishonest, regardless
I'm heartless, cause money is endless
No heart to get clipped you trip you'll get clipped
The weak will slip, hit is what they get
Heat spark avoid the jack don't talk gun spark
All money sharks in New York
Money's fast, the city ain't slow
The papes low, in all those boroughs, yo

Yo, yo

I love the dirty blocks, my thugs at the corner movin that stuff Controllin the spot, I like the city yo we move quickly Where the streets talk a lot, yo (uh-huh, yo)
And if you snitch them kids'll get you at the chicken spot And rock big leathers, and match the Timbs up Lace the kicks up, the new fitted (new fitted)
A long chains make the chickens get real hot Stop playin, it's the Big Apple
We take a bite out, conference calls blow ten thousand (yeah)
Bungalo six baby, on just a night out (woo!)
The Westside highway, I test my heat out
Five deep, we move fast and blow the seats out
The streets peak out, they like the Claybornes

Come through, yo we make the streets stop I know your head bop, New York City (New York) Where cats wild out and jacks just go out
