

## Fruitman

Kool & The Gang

Here comes the fruitman,  
Bringing fruit from the land  
Here come the fruitman,  
Bringing vegetables from the land

When you see the fruit truck come through  
The Fruitman always asks you  
What can I, I do for you  
I have watermelons, red ripe tomatoes  
Apples and oranges, Idaho potatoes

So look and see what you see  
I only bring things naturally  
You know you gotta eat to live  
So your body can give you more to give  
So eat naturally, and you will see the difference
