

# Good Time Tonight

Kool & The Gang

Tonight, ooooh  
This is the night you'll see the light  
Tonight, ooooh  
This is the night you'll see the light

My 16th birthday I was so shy  
Not yet a man but ready to try  
Music playing people saying  
I looked around she caught my eye  
Walked into the room I couldn't hardly see  
There she was moving closer to me  
She told me her name before I could speak  
Took my hand and then she said these words to me

Tonight, ooooh  
This is the night you'll see the light  
That's waht she said me  
Tonight, ooooh  
This is the night you'll see the light

Hey beautiful girl so lovely tonight  
Show me the way show me the light  
Music playing people swaying  
Next thing I knew we started to groove  
Dancing and dancing moving so free  
A feeling of love had come over me  
I held her close and knew it was right  
What a perfect surprise I had finally seen the light

(repeat)

Tonight, you will finally see the light baby  
Tonight, you will finally see the light baby  
Tonight, you will finally see the light  
You will see, ooh you will see the light  
Tonight you will finally see the light  
Ooooh yeah

Oh come on I want to dance with you  
Oh come on I want to dance  
Oh come on I want to dance with you  
Oh come on I want to dance with you
