

# Got You into My Life

Kool & The Gang

I open my eyes  
And I finally realize  
I got you in my life  
And the loneliness dies

You brighten my days  
In so many ways  
I got you  
I got you  
I got you girl  
I got you  
I got you girl

You started these spark  
That put love in my heart  
With you in my life  
All the loneliness passed

And you make me feel  
So very real  
I'm so glad I got you girl  
I got you  
I got you baby  
Yeah yeah yeah

Never go away my sweet  
It's your love I need  
Stay here by my side  
To love me and hold me and squeeze me  
So 'til the end tonight

There was a time  
When love was not mine  
Though I searched everywhere  
I just couldn't find  
A love that was real, a love I could feel  
So real...never go away...

Never go away my sweet  
'Cause it's your love I need  
Stay here by my side  
To love me and hold me and squeeze me  
Oh wee baby  
To love me and hold me and squeeze me  
To love me and hold me and squeeze me  
So 'til the end tonight

There was a time  
When love was not mine  
I searched everywhere  
But I just couldn't find  
A love that was real, a love I could feel  
So real...never go away...

You started this spark  
That put love in my heart...yeah  
With you in my life all the loneliness passed

And I wanna thank you baby  
Fulfilling my life, yeah  
Can't you feel me

Oh wee baby

Never go away...  
Always..always..always..always..by my side  
Because I feel it everyday feel it everyday
