

Think It Over

Kool & The Gang

Why does the sun kiss the earth every morning
Why does the wind comb the leaves of the trees
And why do our hearts keep on reaching for each other
That's love and that's the way it should be - think it
over

Think it over, think it over, think it over (oh yeah)
Just think it over, think it over, think it over

Why does the sun kiss the earth every morning
Why does the wind comb the leaves of the trees
And why do our hearts keep on reaching for each other
Is it love or faith - or the way it should be

Think it over (thinking), think it over (think about
it)
Think it over (well every single day)

Just think it over (thinking), think it over (think
about it)
Think it over (oh yeah)

Don't let your past emotions and feelings keep you
holding back
You need love like I do (just like I do)
So open up, let me in baby let this love begin
We will have the greatest love of all time

Think it over (thinking), think it over (thinking)
Think it over (oh, each and every day)

Just think it over (think about it), think it over (in
your mind yeah)
Think it over

Why does the light always follow the darkness
Why does the calm always follow the storm
And why do our hearts keep on reaching for each other
Is it love or faith - or the way it should be

Think it over (thinking), think it over (just thinking)
Think it over (well, each and every day)

Just think it over (think about it), think it over
(think about it)
Think it over (oh yeah)

Think it over (thinking), think it over (just thinking)
Think it over (well, each and every day)

Just think it over (think about it), think it over
(think it over)
Think it over (and we will see, yeah)

Don't let your past emotions and feelings keep you
holding back
You need love like I do (just like I do)

So open up, let me in baby let this love begin
We will have the greatest love of all time

Think it over (thinking), think it over (think about
it)

Think it over (just feel it in your mind, babe)

Just think it over (and you should be), think it over
(thinking about it)

Think it over (and oh, think about your mind)

Think it over, think it over, think it over (just feel
it in your mind)

Just think it over, think it over, think it over (just
keep on think over baby)

Think it over (in your mind), think it over (in your
heart, babe), think it over (and don't you waste no
time)

Just think it over (just think about it), think it over
(think about it), think it over (and if you feel it in
your heart, yeah)
