

I See a Different You

Koop

So we are astray
There's nothing else to do
In another place
I see a different you

'Cause we
We left and lost again
I'll never love again

Oh, baby now we are apart
There's nothing we can do
In a different place
I see another you
And in another place
I see a different you

So we are astray
There's nothing else to do
In another place
I see a different you

'Cause we
We left and lost again
I'll never love again

Oh, baby, now we are apart
There's nothing we can do
In a different place
I see another you
And in another place
I see a different you

Oh, we left and we lost
I'll never love again
