Salvation

Koop

My salvation
Exit normal life
Join the chain of fools
In the famous drive

No relations
Set aside for you
Glaze it's open wide
Secrets coming through, yeah

But do stars see the line when they glow, yeah
Do the nights tell the day what they know, yeah
Just show me the way and I'll go make everyone love me

I'm controlling
All along the way
Thron is never home
And that's where I'll stay, yeah

I am going
Where the music plays
Unhappy faces smile (???)
And consume the brain (???), yeah

But do stars see the line when they glow, yeah
Do the nights tell the days what they know, yeah
Just show me the way and I'll go make everyone love me

But do stars see the line when they glow, yeah
Do the nights tell the days what they know, yeah
Just show me the way and I'll go make everyone love me
