

Strange Love

Koop

Strange love
Even though you hurt me I feel blessed love
Baby I'm your puppet on a string
Making me tumble and swing
Trouble's what you bring
Strange love
Strange love

Strange how
You control my every little move now
Hanging from your strings is all I know
Starring in your puppet show
Never let me go
Strange love

All the things you've said and done
There's no space for me to run
Baby I've lost and you have won
Cause' all I really want is
Strange love

Even though you hurt me I feel blessed love
Baby I'm your puppet on a string
Making me tumble and swing
Trouble's what you bring
Strange love
Strange love
Strange love
