## Summer Sun

Hey, Summer Sun You always smile Clouds in the sky You never mind Happy or sad You always shine Never before I've met your kind

Love had never got a hold on me Until you stepped out of a dream My life once a misery Now your love has set me free

Hey, Summer Sun Your love's divine Never before I've met your kind And now you're mine

Hey, Summer Sun You always smile Clouds in the sky You never mind Happy or sad You always shine Never before I've met your kind

Love had never got a hold on me Until you stepped out of a dream My life once a misery Now your love has set me free

Hey, Summer Sun Your love's divine Never before I've met your kind And now you're mine
