

Die Yet Another Night

Korn

Sick of all these things I tried
Sick of all these lies
(Nobody cares you're just a bad man
Nobody wants you're a dead man)
Wake me from my darkest dream
Read me from my mind
(Nobody cares you're just a bad man
Nobody wants you're a dead man)

No problem I've got time to kill
(Nobody cares you're just a bad man
Nobody wants you're a dead man)
Slave everyone
I've had my fill
(Nobody cares you're just a bad man
Nobody wants you're a dead man)
Do what you say, Do want you want to (4x)

We rip upon the flesh and lift to see
And looking on all the faces along the way
The terror grips me closely and holds me tight
And hope I get to
Die Yet Another Night

Throw a wrench into my world
Throw me in the fire
(Nobody cares you're just a bad man
Nobody wants you're a dead man)
Death come over to me one time
We should get much higher
(Nobody cares you're just a bad man
Nobody wants you're a dead man)
No problem I've got time to kill
(Nobody cares you're just a bad man
Nobody wants you're a dead man)
Slave everyone I've got my fill
(Nobody cares you're just a bad man
Nobody wants you're a dead man)

Do what you say, Do want you want to (4x)

We rip upon the flesh and lift to see
And looking on all the faces along the way
The terror grips me closely and holds me tight
And hope I get to
Die Yet Another Night

Don't get close to me
Safe for you
All this suffering left to do
Don't get close to me
Safe for you
All this suffering left to do
All this suffering left to do
All this suffering left to do

We rip upon the flesh and lift to see

And looking on all the faces along the way
The terror grips me closely and holds me tight
And hope I get to
Die Yet Another Night

We rip upon the flesh and lift to see
And looking on all the faces along the way
The terror grips me closely and holds me tight
And hope I get to
Die Yet Another Night
