Embrace

Blood is pouring Sleep is boring Don't stop running I'm here counting The life, the hurt, the pain, the hate The life, the hurt, the pain, the hate The life, the hurt, the pain, the hate Will he keep fuckin' with me? There's no where else to go! So I walk but seem to crawl For, I'm giving in today Now I run into a wall Cause I cannot fight my way You've gotta come with me (I cannot stand this place) We're falling off the world (and I'll give in this way) We had a chance to run (and now I can't believe) We're going all the way (and all the affairs embrace) My life, worry, life is story Give up, beating I'll start, needing The life, the hurt, the pain, the hate The life, the hurt, the pain, the hate The life, the hurt, the pain, the hate Will he keep fuckin' with me? There's no where else to go! So I walk but seem to crawl For, I'm giving in today Now I run into a wall Cause I cannot fight my way You've gotta come with me (I cannot stand this place) We're falling off the world (and I'll give in this way) We had a chance to run (and now I can't believe) We're going all the way (and all the affairs embrace) (Embrace Embrace [4x]) Oh Uh, uh, uh uh. Uh, uh, uh uh. Uh, uh, uh uh. Uh, uh, uh uh. What really do I have to follow? Nothing makes sense at all. Taking something for nothing Watch me as I fall. I'm bringing me down [3x] I'm bringing me...down You've gotta come with me (I cannot stand this place) We're falling off the world (and I'll give in this way) We had a chance to run (and now I can't believe)

We re going all the way (and all the affairs embrace) [2x]
