

I'm Done

Korn

We are the pain
We are the shame
We've gone insane
Inside where no ones around

I am to blame, for everything
I like this game, that you all
make me play

I'm done being there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down

We are estranged
We are deranged
I can't explain
How you all break me apart

I am to blame, for everything
I like this game, that you all
make me play

I'm done being there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down

We wait, we hate
We try to get away
Mistake my pain
It has been lead astray
I'm Looking around, I drop to the ground
Why does it have to end this way

Feeling numb, so long
Oh God it's just everything
It's everything
Now I pray for all of them to go away!

I'm done being there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down
