

# Lullaby for a Sadist

Korn

Seething, I walk the circle  
I called out long ago  
But somehow I get lost each time  
Feeding this hunger deep inside  
That never lives  
The voice within eats me up inside

One, I love hurting you  
Two, I love your pain  
Three, let's get together and  
Play the sinner's game  
Four is for the torture and  
Five is for the shame  
Cause every time you want it  
I get off on this game

You wanted to play  
The coldness follows  
This isn't a game  
Your life, I'll swallow  
And I can't help  
But smile at your pain  
You wanted to play  
But I already won

Gloating, I plant the seed  
Inside your head  
Right away, watch it grow  
Destroying your insides  
Pleading to comfort you  
With my sadistic ways  
I watch the tears fall  
I crack a smile

One, I love hurting you  
Two, I love your pain  
Three, let's get together and  
Play the sinner's game  
Four is for the torture and  
Five is for the shame  
Cause every time you want it  
I get off on this game

You wanted to play  
The coldness follows  
This isn't a game  
Your life, I'll swallow  
And I can't help  
But smile at your pain  
You wanted to play  
But I already won

I look at you and start to crack  
Start to crack  
I give into, you take it back  
Take it back  
This lullaby is all you have

All you have  
Sadistic pleasure, I attack  
I attack  
I attack  
I attack  
I attack

You wanted to play  
The coldness follows  
This isn't a game  
Your life, I'll swallow  
And I can't help  
But smile at your pain  
You wanted to play  
But I already won  
I already won  
I already won
