

The Past

Korn

You chose to take from the past
You want a game that's built to last
Cause love without affection
Is hate without the pain
Life is a connection
Separate from the brain
You chose to take from the past

Can't you see the pain in my eyes?
Can't you see the betrayal in disguise?
I can't live with all your lies again
I can't trust anything even you, my friend

You want to live in the past
You'll do anything
To make your pain last
Cause love without affection
Is hate without the pain
Life is a connection
Separate from the brain
You just take, from the past

Can't you see the pain in my eyes?
Can't you see the betrayal in disguise?
I can't live with all your lies again
I can't trust anything even you, my friend

(Run away, Go away)

Can't you see the pain in my eyes?
Can't you see the betrayal in disguise?
I can't live with all your lies again
I can't trust anything with you, my friend

Can't you see the pain in my eyes?
Can't you see the betrayal in disguise?
I can't live with all your lies again
(It's the end)??
