

# You Looked into My Eyes

Korpiklaani

We are here alone  
Only the camp fire  
Shines on your face  
I touched your hand  
But you disappeared  
As the smoke the air

You looked into my eyes  
You have me hypnotized  
And I do what you want to

We are here alone  
Only the moon  
And wolves are with us  
Fire swallowed  
You and your hair were ablazed  
But you still laughed loud  
I'm alone again  
And old pine tree  
Asked me, where's your woman?  
I said: Shut up  
Or I make of you another  
Firewood

[Chorus]
