

# Gone

Kosheen

What's the matter with your mind?  
What's the matter with you head?  
What's the matter with your life, do you want mine instead?  
What's the matter with your time?  
What's wrong with your shoes, what you doin' in mine?  
Wheres the love gone (wanna know where the loves gone) x3  
Tell me wheres the love gone, wheres the love gone  
I'm little with the reason  
tryin' to appease what they said  
I'm riggid with hope  
I'm driven with fear in my bed  
They've taken my soul  
and digin' a hole to deep to fill  
They'll never learn,  
I doubt if they ever will...  
Wheres the love gone (wanna know where the loves gone) x3  
Tell me wheres the love gone, wheres the love gone  
Wheres the love gone...  
Time slips through my fingers...  
inside my head...  
here for a moment...  
and is gone...  
tell me  
Tell me (I wanna know where the loves gone)  
Wheres the love gone?  
Wanna know where the loves gone....  
Can ya' take me?  
Wanna know where the loves gone....  
Wheres the love gone (wanna know where the loves gone) x2  
Tell me wheres the love gone, wheres the love gone...
