

Wish You Were Here

Kosheen

This injury
is caused by reckless handling
and causes insecurity
distance isn't good for me
memories for past invite
and i wish you were here
and i wish you were here
into me
driving the reality
rolling right up over me
and i'm where i want to be
by your side
and i wish you were here
and i wish you were here
i wish you were here
i wish i could change
turn around the time
rearrange the play
even though you're near
it seem so far away
you seem to disappear from sight and sound ain't gone again
and i wish you were here
