

Life Rolls On

Kottonmouth Kings

Another day gone
Another day gone

Sittin' in mah livin' room pullin on sum tubes
No more bubble berry so I settled for the blues
Snapped it through and my lungs start to hurt
Hold it in long enough to put your dick in the dirt
And people go beZeRk tryin' to get there hands on it
Most common heard phrases 'Richters got tha chronic'
So I'm on it
Matter fact I'm on the top
Can't nobody fuck wit me or the killa kali crops
Like Reebok's yo I'm unstoppable and the bowls that I pack are unpopppable
So what you grow? all I want to know is what seeds
What system you usin'? you got the lite's you need?
You gotta mess with the greed from the weed I believe
Is you a cop without a clue jus' lookin' for a need

Life rolls on
Passin' by yo eyes so fast
Another 24' another day has passed
Life rolls on
Half of you said we'd never last
Life rolls on
Passin' by yo eyes so fast
Another 24' another day has passed

Hey loc
I think it's time to grow again
Fuck it
If your gonna grow you better come pik up your bucket
Alright I'm comin' through
'Ay yo grab some mountain dew, wha!?
A pack of zig zagz and a couple a brews
I cruise through in the blue 2 with the bass tubes
I too got the big bumps keep my caddy dumped
Don't front on this trunk stump on mah bangin' bus
Well he rumped on the blunt spot turn that shit to dust
Dust till dawn jus' like the modern day Cheech and Chong
Tim and Dustin on the bong smokin' mad amounts of ganj'
Writin' songs playin' pong we be signin' off the law
Stealin' cigarettes and bongs we was kids gettin' it on
But now I grow, standin' strong 2000 and beyond
Too dawns hit the bong used to fight to get along
That was way back then and this iz right now
We on a mission to Guinness smoke it
And blow tha hell out

Life rolls on
Passin' by yo eyes so fast
Another 24' another day has passed
Life rolls on
Half of you said we'd never last
Life rolls on
Passin' by yo eyes so fast

Another day gone another day gone another day gone life rolls on
Another day gone another day gone another day gone life rolls on

There's 4hundred and 20 ways to blaze
Use one and change crate
When you smokin' up the vape
Mon hey, sit back need to put you in a trance
Grab you're sac relax
An throw your cap up on the hat rack
Throw you're feet up recline jus' chill
We jus' smoked an eighth of the mothafuckin' kill
Fo' real hold it in now we goin' on a ride
The bud inside ain't nothin' to fuck wit
So Santa Cruz that we got our jobs crypt
The crypt that you never find aroun'
The reason you can't find it in your city or you're town
Becuz it sits in my bedroom in piles and pounds
We got pound and pounds that the world don't know about
If I sold it "yo they'd all be in the clouds"
Chillin' out without a doubt it's not fo' the money
It's all fo' the head n gettin' stoned with my honeys

Life rolls on
Passin' by yo eyes so fast
Another 24' another day has passed
Life rolls on
Half of you said we'd never last
Life rolls on
Passin' by yo eyes so fast
Another 24' another day has passed
Life rolls on
Half of you said we'd never last
Life rolls on

Peace out to the four fathers
Blaze that shit up!
