

# No Regrets

Kottonmouth Kings

One chance  
One life  
We going out blazin'

Wanted dead or alive my face is on the poster  
My life is up and down like a roller coaster  
I'm a easy rider don't do what I'm supposed ta  
Outlaw living life to provoke ya  
Packed and loaded I'm with my six shooter  
Just for protection equipped with a hooter  
Chasing cooter drunk in some bordello  
Tipping back whiskey heads feeling mellow  
Few more hours 'til we storm the next county  
Bar tender said that on my head there is a bounty  
Another night another sticky situation  
I travel light it comes with the occupation  
The pirate's life you know we going out blazing  
Grab the map to the next destination  
A pound of chronic and some fine ladies waiting  
No regrets that's all that I'm saying

I want to live life like there's no tomorrow  
Drink it all up the whole damn bottle  
No regrets no time for sorrow  
Want to lead never want to follow  
Live life like there's no tomorrow  
Drink it all up the whole damn bottle  
No regrets no time for sorrow  
Want to lead never want to follow

We only get one life one choice one chance  
Can't change the past have to play what's dealt in your hand  
I try to help you understand why I do what I do  
If you can help me understand why I should listen to you  
There ain't a perfect person living on this planet today  
And I'm certain I've been wrong with some decisions I've made  
But that's a play that's been played they say what's done is done  
You got to lose a couple battles before the war is won  
See apologies I've given and I've also accepted  
At the time it seemed right so I never regretted  
The path I took look buddy you can go and be mad  
But I'm having fun 'til my last breathe

Well I'm always staying busy gotta keep it on the double  
Keep this shit popping like there's no tomorrow  
Got my chin held high got my eyes peeled back  
Don't rock no blings but my baseball cap  
Bustas get smacked broke down like compounds  
Let me sag my pants while I smoke this pound  
Ride this bitch until the wheels fall off  
No time to play around bitch ass get tossed  
Never falling off living life, learning lessons  
Making mistakes coming back no questions  
Dumb ass don't say nothing  
I'm living mine you're living yours  
So fuck them his and hers

Some say life is short man  
It all depends on who you're asking  
No regrets rolling and passing  
Round and round and round in high fashion
