

# Peace Of Mind

Kottonmouth Kings

Ooooo oooooo

Peace of mind, Peace of mind

We want peace whoa

We want a peace of mind

It's times like this I wanna leave the world behind

We want peace whoa

We want a peace of mind

I wanna take a little piece of my herb and get this whole world high.

Some body please explain

Cause all we want is to be treated the same

Just live in peace with peace of mind

Enjoy the earth, this life and my kind (my kind)

Right now it's time to celebrate

Relax, Kick back put your feet up forget to hate.

Is it me or has this world gone crazy

Last chance, Last dance force maybe

Bombs are droppin body's poppin like the last days

Now I finally understand how crime pays

Its the plan that's designed through corruption

Total domination, mass destruction

Or mass distraction you do the math

When 1+1 don't equal 3 no

It's like a sickness that they don't want the cure for

Apocalyptic and only been sured for

It's like we're doomed and were headed for our last days

I wanna peace of mind, everlastin

KottonMouth Kings need to open up your mind

With the kind come and get a dose of reality

Think about the good things in life

Because negativity only brings fatality, fatalities bring broken hearts, tears, flowers, caskets people

crying, love ones dying

I see my friends going down the wrong path so I realize

Keep on striven stay true to myself and try to find my peace of mind

Thank you baby.
