

## Positive Vibes

Kottonmouth Kings

We need some positive vibes for these rainy days  
Let the sun come out keep push these clouds away  
We need some positive vibes life's for fun so go and play  
Let the sunlight in, brighten up your day  
Let the vibes blow like the ocean breeze  
Mamma always told me there'd be days like these  
Keep your head right, just do as you please  
Never interfere with an evil man's schemes  
Keep your heart pure, conceive your own dreams  
Respect your fellow man, the earth with the trees  
The air that we breathe and the highest mountain peak  
Bring truth from your soul to your mouth when you speak

No need to get loud .. messin with others, stressin' your brother, it's time  
to uncover  
Time to choose another path you see  
Cause the road most traveled's negativity  
Put your fist down (fist down), throw your hands in the air  
Respect yourself, be somebody who cares  
Don't let life get you down, don't feel abused  
Keep a positive view unto yourself be true

Everyday's a new adventure You got to keep what you got  
Livin' life in a studio bustin' rhymes in my socks  
I got to keep my head up and always do what I feel  
Avoidin all the evil and just keeping it real  
(I need some positive vibes)  
All these situations I keep hearin' about  
People dyin' in planes and buildings crumbling down  
This world goes round for no apparent reason  
People robbin and theavin' just to feel good for the evening  
(I need some positive vibes)  
What happen' to everybody's peace and love  
Throw your drinks the sky, raise your hands up above  
Get yo head out of the gutter and be respectful  
We need some positive vibes for these rainy days so let it go  
Don't never get it twisted when I'm on this track  
D-Loc the kind kid that be kickin' it back  
Of the class everyday I was high  
Goin to school in 95 easy that how we ride

It's time to leave this rat race chant down Babylon  
Keep my head straight, keep my family movin' on  
Find my own place, create my own space  
Detach my whole scene from this wicked rat race  
The two-faced friends, the snakes in the grass  
Daddy always told me there'd be men like that  
So watch your own back keep your eye on your stacks  
Don't ever write a check that that ass can't cash

We need some positive vibes  
(Keep on reaching for it)  
For these rainy days  
(Keep on hoping for it)  
Let the sun come out keep push these clouds away  
(What we need is, all we have is positive vibes)  
We need some positive vibes

(What more can we say to you)  
Lies that so forth go out and play  
(What more can be said to you)  
Let the Sunlight in, brighten up your day  
(What we need is, all we have is positive vibes)
