

# Rainfall

## Kottonmouth Kings

The sent of god is here and I can smell it  
What the future holds there is no tellin  
Thats why I come out strong and twist me ends

Let the rainfall  
Come and wash these tears away  
Let the rainfall  
Brings with it bright and sunny days  
Let the rainfall  
Come and clense my troubled soul  
Let the rainfall  
When you fell there's no place left to go  
Let the rainfall

Let the rain come clensing down  
Let it wash all the pain and our troubles away  
Let the clouds roll in  
Let the lighting strike  
Let the wind blow ferice and rivers rise  
It'll be alright just hold on tight  
We can make it through even the darkest of nights  
We when the fall of sunshine on mother earth  
We'll do a sun dance and we'll burn some herb  
We'll make a toast up to the gods  
Light a peace pipe and wish on a star  
This rain is a gift from the skies above  
And all living things get strength from the sun  
Now whats done is done and lets return to dust  
So in god we trust let him do what he must  
Cause we are what we are and thats all it is  
So let the rainfall down and lets live how we live

Keep your head held high kid theres better days  
Good times ahead listen up keep what I say  
There that we talk about is a metphor for bad times  
Cause when the rain passes there always sunshine  
Suck it up don't give up when your pressed to much  
Making it through rough times only makes you tough  
It makes you strong it makes you a survivor  
You can do anything when you have you family by your side  
If you ain't got a family then turn to you friends  
If you friends then on you depend  
You'll make a better life for you and yours  
Slamming doors in your face only helps you out some more  
Don't let them get you down like shoots and ladders  
Makes you feel like your worth nothing till someone matters  
How you do and how you win if your happy or sad  
So let the rain wash away and be glad

So I can wash it wall away  
In the sunshine and brighten up you days  
In this life time its kinda hard to get away  
From the pressures and pain but it'll be ok  
And thats why I try to be my best  
Test myself till every last breath  
Now I hold tight to whats right  
Stay strong and get along to

The special one's in my life  
Here we go now it's time to shine  
And the world is mine  
I got my family by myside  
And i'm doing fine  
So i'm keep it me  
Stand tall and let the rain fall

So let it be whats its ganna be  
Let the rain fall down on me
